

# DATA-DRIVEN TOOLS FOR REDUCING TURNOVER

Employee turnover is costly, increases organizational burden, and lowers morale. Journeyfront gives you the tools you need to tackle turnover at your company in a data-driven manner.

## HOW JOURNEYFRONT HELPS

Journeyfront helps companies identify what is causing their turnover and build a data-driven hiring plan for reducing it. Reduce your turnover with these recurring steps:

### 1 Collect Turnover Insights

Identify insights from existing employees on what drives job satisfaction, performance, and turnover.

### 2 Build the Ideal Screening Process

Leverage Journeyfront tools to build the ideal candidate screening process based on turnover insights.

### 3 Screen and Hire Applicants

Use Journeyfront hiring tools to screen and hire applicants based on turnover risk and other key factors.

### 4 Track Turnover and Optimize

Analyze hiring data against turnover and make data-driven adjustments to screening process based on insights.
